Summary

MCA student with hands-on experience in Java, Spring Boot, React, MySQL and REST APIs, with strong foundations in Data Structures, OOP and DBMS. Built and tested full-stack applications with a focus on secure backend development, clean code and practical problem solving.

Education

Dr. D. Y. Patil Vidyapeeth Aug 2025 – Present
Master of Computer Applications (MCA)
Sem 2 SGPA: 9.18 / 10.0

Sutex Bank College of Computer Applications & Science, Surat 2022 – 2025
Bachelor of Computer Applications (BCA)
CGPA: 8.45 / 10.0

Skills

Programming: Java, Python, C++, JavaScript
Backend: Spring Boot, Spring Security, REST APIs, JPA/Hibernate, JSP, J2EE, Servlets
Frontend: React, HTML, CSS
Database: MySQL, SQL, JDBC
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Computer Networks
Tools: Git, Maven, Postman

Projects

InternTrack | *Java, Spring Boot, Spring Security, React, MySQL, JPA/Hibernate, JWT* Oct 2026

- Developed a full-stack internship platform with **Spring Boot REST APIs and React**, covering applications, opportunities, interviews, reminders, skills and analytics.
- Implemented **JWT authentication,** refresh-token rotation, replay protection, rate limiting and ownership isolation using Spring Security.
- Built an **8-stage application state machine** with atomic batch updates and skill-gap matchin**g**, validated by **589 automated tests with 100% pass rate**.

Online Examination System | *Java, JSP, MySQL, Maven, HTML, CSS, JavaScript* Dec 2025

- Developed and maintained a Java-based web application using **JSP and J2EE** technologies implementing **role-based access control** for admin and user workflows.
- Designed **normalized MySQL schema** with Hibernate ORM-style mapping for efficient exam data storage and retrieval.
- Built **secure session management** and debugged application logic to ensure optimal performance across all modules.

Insurance Management System | *Java, JSP, Servlets, MySQL, JDBC* Mar 2025

- Built a **full-stack J2EE web application** with an admin dashboard for managing policies, customers and claims end-to-end.
- Maintained **MySQL databases via JDBC** with object-to-table mapping, enforced input validation and **SQL injection prevention** for production-ready security.

Certifications

- DSA with java completion Certificate
- Intel Unnati Ai Program Participation Certificate
- INNIXO Hackathon Participation Certificate
